

# Natural STEPPING STONES

**Interlocking shape for a tight-fitting, continual path**

**Quickly create a walkway or path with a beautiful natural-stone appearance. These stepping stones have an even, natural texture. They are lightweight and easy to install.**

- **Natural color and texture** – enhances any landscape
- **Reinforced resin construction** – won't crack or rust
- **Do-it-yourself installation**
- **Low profile allows for easier mowing** – with no trimming after mowing.
