Case Weight: 58.86 lbs.

Case Cube: 10.37 cu. ft.

Dimensions (H x W x L):
36.5" x 24.25" x 20.25"

The **Root Vegetable Pickers™** Patio Garden Kit by City Pickers™ is used by gardeners who do not have a patch of earth for growing their own root vegetables and who want to control what, if any, fertilizer is used in growing their food.

The clean lines of the design and mobility provided by casters allow it to fit in anywhere – porches, patios, condos, and more. It's perfect for anyone who doesn't have a garden!

Root Vegetable Pickers is a self-contained growing unit.

The bottom aeration screen and side water overflow holes give the growing plants the proper amount of air and water needed for good growth. They also prevent root rot and mold typically found in other commercial or homemade boxes.

Features:

- 24" x 20" x 15.75" area – 33% more growing space than similar products
- Deeper grow box to accommodate root vegetable growth
- Aeration screen, water reservoir, fill tube, overflow holes
- Watering system contains about 6 - 8 gallons of water
- Mulch cover retains water and controls weeds
- Casters for mobility and sun tracking
- Durable UV-protected, resin construction
- Reusable
