

The rescue® Deluxe WaterBoys™ Rainwater Collection System is the modular alternative to a standard rainwater collection product. It's a modular system that can grow to the needs of the homeowner. The design is flexible, so the individual units can be used as a single unit or linked in multiples. They can be stacked or positioned side-by-side.

The attractive, classic wicker surface enables the WaterBoys system to be used in a multitude of settings – naturalized, rustic, contemporary and more.

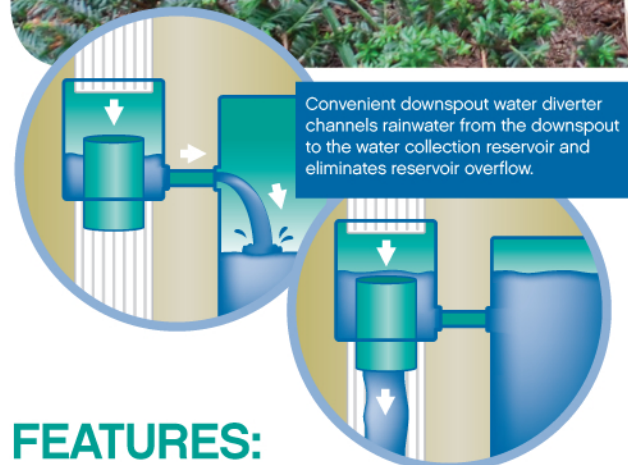

For more information regarding WaterBoys or any of our ever-growing selection of environmentally responsible products, contact our national sales office at 1-800-458-0839.

The Rescue Rain Barrels can be linked together in groups of two or more – horizontally or vertically – to gather a maximum amount of rainwater.

Deluxe WaterBoy
42-Gallon Capacity
#2500
UPC: 0-72358-02500-4
Pack: 1
Weight: 11 lbs.
Cube: 6.38 cubic feet
Dimensions:
25" H x 21" W x 21" L

Convenient downspout water diverter channels rainwater from the downspout to the water collection reservoir and eliminates reservoir overflow.

FEATURES:

- 42-gallon capacity
- The modular nature of WaterBoys allows the homeowner to link in groups of two or more – horizontally or vertically.
- Easy to install / Convenient to use
- Includes a downspout diverter kit that fits a 2"x3" or 3"x4" downspout
Will fill a single WaterBoy within 2 to 3 hours during a moderate rainfall.
- Can be connected to a soaker hose for convenient, automatic watering of nearby plants/gardens
- Convenient-to-use manual shut-off valve
- Durable, UV-stable 25% recycled resin
