

# WaterStones™

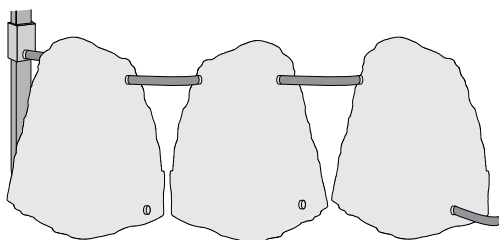

## Rainwater Collection System

40-gallon capacity

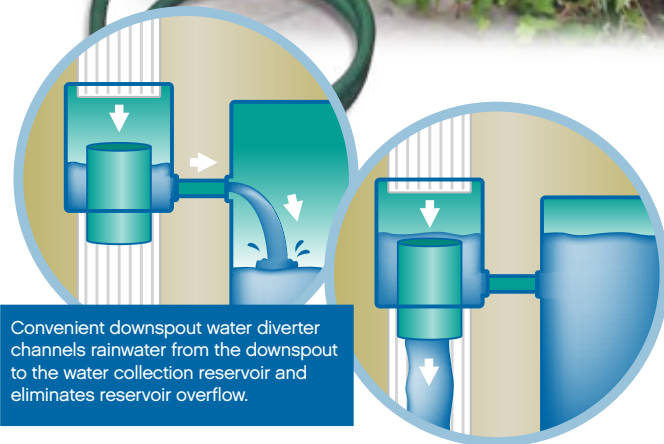

The Rescue® WaterStones™ Rainwater Collection System is both earth-friendly and money-saving. By reducing dependency on the water from municipal sources the energy demand for purifying water used for yard and garden purposes is reduced. Collecting rainwater eliminates strain on wells and water systems during drought conditions, and you save real dollars by reducing your monthly water and sewer bills.

Combining design with function, the Rescue® WaterStones™ Rainwater Collection System have a natural stone appearance – compatible with most home and garden decors.

- 40-gallon capacity
- Easy to install / Convenient to use
- Includes a downspout diverter kit that fits a 2"x3" or 3"x4" downspout  
Will fill 55 gallon rain barrel in 2 to 3 hours during a moderate rainfall.
- Can be connected to a soaker hose for convenient automatic watering of nearby plants/gardens
- Convenient-to-use hose
- Durable, UV-stable resin
- Linkable in groups of two or more

WaterStones™ can be linked together to gather a maximum amount of rainwater.

### WaterStones™ 40-Gallon Rain Barrel #2284

UPC: 0-72358-02284-3

Pack: 1

Weight: 15 lbs.

Cube: 9.51 cubic feet

Dim.: 30.125" H x 29.5" W x 18.5" L

### fact:

The average person uses 100 gallons of water a day. For every inch of rainfall on a 1,000 sq. ft. roof you can collect approximately 600 gallons of water.

### advantages for plants:

Soft, pure, chemical-free rainwater maintained at proper ambient temperature helps plants grow vigorously. Cold, chlorinated water from most tap systems can shock plants and slow growth.
