

# 50-Gallon Flat-Back Whiskey Barrel

## Rainwater Collection System

includes  
downspout  
diverter kit!

**rescue®**  
environmentally  
responsible products

The Rescue® Flat-Back Whiskey Barrel Rainwater Collection System is both earth-friendly and money-saving. By reducing dependency on water from municipal sources, the energy demand for purifying water used for yard and garden purposes is reduced. Collecting rainwater eliminates strain on wells and water systems during drought conditions, and you save real dollars by reducing your monthly water and sewer bills.

- Top of unit is an extra-large planter
- Planter has built-in weep hole to prevent plant roots from rotting
- Easy to install / Instructions Included
- Includes a downspout diverter kit that fits a 2"x3" or 3"x4" downspout  
Will fill 50-gallon container in approx. 2 to 3 hours during a moderate rainfall.
- Can be connected to a soaker hose for convenient automatic watering of nearby plants/gardens
- Convenient-to-use manual shut-off valve
- Durable, UV-stable, 25%-recycled resin
- Linkable in groups of two or more

Flat Back  
fits snugly  
against your  
home

with built-in  
planter

Convenient downspout water diverter channels rainwater from the downspout to the water collection reservoir and eliminates reservoir overflow.

### Parts Included

Urns can be linked together to gather a maximum amount of rainwater.
